

PCC_W Series

4, 6 and 10 LIGHT SWITCHING POWER CONTROL CENTERS

Four, six and ten switch control centers provide complete control in a fully assembled, low cost package.

PCC6W

PCC10W

PCC4W

FEATURES

- Compact Design.
- Rocker style single pole/single throw switches, rated at 25 amps peak, with 'active' LED indicators that light up to indicate function in use.
- Individual spade-type fuses conveniently located on rear mounted fuse strip.
- Ignition controlled backlighted legend windows for easy visibility in any light.
- Backlight circuit can be connected to vehicle dimmer switch to control backlight intensity.
- 72 commonly used press-on switch function label legend tabs standard.
- Black epoxy-finished, steel housing.
- Common ground post for ease of installing.
- 12 VDC.

PCC6W and PCC10W only

- PCC6W has six 25 amp switches.
- PCC10W has ten 25 amp switches.
- PCC6W/PCC10W have "piano style" backs with rear mounted "captive" terminal block for easy installations.
- Aftermarket console mounting recommended but includes an adjustable 2 position universal bail bracket strap mounting kit for over or under dash mounting.
- Adjustable bracket overall heights: 3-3/8" (86mm) H (lower bracket position), 3-3/4" (96mm) H (higher bracket position).

PCC4W only

- Four 25 amp switches.
- Flying leads connection
- Includes an adjustable 2 position universal bail bracket strap mounting kit for over or under dash mounting.
- Adjustable bail bracket overall heights: 2-3/4" (70mm) H (lower bracket position), 3-1/4" (83mm) H (higher bracket position).
